Biennial Report 2021-2022

Goals

- Showcase our achievements and activities during the 2021-2022 period

- Compile and record our activities in a structured document

- Increase public engagement and serve as a basis for other public engagement activities

- Provide a tool for CEGIST members to easily demonstrate the center's work and achievements

Long Process ☺

Late 2022 - Early 2023: Data collection and initial drafting

- Data on projects, activities, funding, theses (PhD and MSc) and outreach efforts, sourced from annual reports to FCT and internal documents
- Principal Investigators (PIs) of each research area provided detailed descriptions and summaries of their areas
- Finding appealing photos and figures
- Multiple revisions

April 2023: First draft completion, aligned with the visit of the Scientific Advisory Board

May-June 2023: Revision of the report based on feedback

July 2023: Public release of the final version, coinciding with CEGIST's Annual Day

The Final Result

And the second edition is already available!

A Special Thank You to...

1st Edition
[2021-2022]

Sofia Machaqueiro
(Administrative)
